Please note that even if your program scored 100% or better on a particular Program Standard, there still may be topic areas reported for ongoing improvements. This can occur because Emerging Criteria are given extra credit when scoring. Therefore, there could be unmet criteria in a particular topic area although the credit given for meeting the emerging criteria raised the Program Standard score to 100% or more

AREAS FOR ONGOING IMPROVEMENT BY PROGRAM STANDARD

2. Curriculum

The NAEYC Academy commends your program for implementing a curriculum that is consistent with its goals for children and promotes learning and development in each of the following areas: social, emotional, physical, language and cognitive.

A curriculum that draws on research assists teachers in identifying important concepts and skills as well as effective methods for fostering children's learning and development. When informed by teachers' knowledge of individual children, a well-articulated curriculum guides teachers so they can plan learning experiences that foster children's growth across a broad range of developmental and content areas. A curriculum also helps ensure that the teacher is intentional in planning a daily schedule that (a) maximizes children's acquisition of desired knowledge and skills through the effective use of time and materials and (b) offers opportunities for children to learn through play and structured activities individually and in groups according to their developmental needs and interests.

Children benefit most when their teachers have high levels of formal education and specialized early childhood professional preparation. Opportunities for teaching staff to receive supportive supervision and to participate in ongoing professional development ensure that their knowledge and skills reflect the profession's ever-changing knowledge base.

- 6.A Preparation, Knowledge, and Skills of Teaching Staff
- 6.B Teachers' Dispositions and Professional Commitment
